

*PRESS RELEASE*

**De Antonio Yachts presents the D50 Open, its most powerful and stylish flagship to date**

- The 50ft yacht is the ultimate exponent of performance and onboard comfort.
- Featuring two or three cabins, it can also include a jacuzzi on deck.
- The World Premiere takes place at the International Palma Boat Show the upcoming 3<sup>rd</sup> to 6<sup>th</sup> of June

The Spanish shipyard has announced the recent addition to their navy, a 50 feet yacht based on its brother's award-winning D46 Open hull and equipped with 2, 3, or 4 hidden outboard engines. The exclusive yacht provides unmatched sporty and efficient navigation overpassing 50 Kts with maximum power of 1800hp.

Its deck distribution offers impressive solarium areas to relax without giving up an interior that breaks the outlines of the industry. With a customizable interior layout, you can order it with 2 or 3 cabins, and one of those is adaptable for a skipper cabin. Likewise, the interior can contain two or three bathrooms, so it makes a perfect fit for each owner demands.

There are even more surprises in store for this spectacular yacht. At the bow, an optional 2.5-meter saltwater Jacuzzi will be the envy of any yachtsman. This optional, with interior window and cup holder, is the perfect finishing touch to an incomparable boat.

Its World Premiere will take place at the International Palma Boat Show, from 3<sup>rd</sup> to 6<sup>th</sup> of June, at the stand of the brand.

**More about De Antonio Yachts**

De Antonio Yachts was born in 2012 from the passion of its founders, Marc de Antonio and Stan Chmielewski, for the sea and design, with the interest to innovate by creating boats with simple and avant-garde lines.

Offering new solutions such as innovative concealed outboard engines for all models and applying concepts that improve efficiency, ease of use and performance, De Antonio Yachts is a trendsetter in the yachting industry. As a result, the company has expanded internationally with a presence on five continents and a wide network of exclusive distributors. In addition, the shipyard has made a notable impact in the sector and has achieved a great development in a short time with a range of 12 models in 4 lengths, achieving 3 nominations and 1 award winner of the European Power Boat of the Year.
